

Telangana Council of Higher Education

Masab Tank, Hyderabad

PRESS NOTE

Inaugural of the Three-Day National Conference on Indian Knowledge Systems at Osmania University

Hyderabad, 28-Oct-2024 — Osmania University proudly hosting a three-day National Conference on Indian Knowledge Systems-2024, featuring distinguished speakers and scholars from across the country. The conference, being held from 28-10-2024 to 30-10-2024, aimed to explore the intersection of traditional Indian educational philosophies and modern technological advancements.

The event was graced by **Prof. V. Balakista Reddy, Chairman of the Telangana State Council of Higher Education (TGCHE)**, as the chief guest of the inaugural session. In his keynote address, Prof. Reddy emphasized the importance of integrating technology into education to meet global standards in view of the 21st Century Challenges. He highlighted the need for educational institutions to adopt innovative teaching methods while preserving the rich heritage of the Indian Education System, which has long been a beacon of holistic learning and knowledge dissemination. With specific relevance to the Digitalisation, he penned down the term "Covidization", which has greatly imparted and influenced the world all over. He mentioned that the 21st Century belongs to Asian Countries and more prominently, to India. During the event Dr. Reddy released several books on the ancient vedic knowledge systems.

Sri Kumar Molugaram, Vice-Chancellor of Osmania University, welcomed the participants and underscored the university's commitment to fostering discussions on traditional knowledge and contemporary educational practices. **Prof. Rani Sadasiva Murthy, Vice-Chancellor** of Sri Venkateswara Vedic University, Tirupati, contributed valuable insights into the relevance of ancient wisdom in today's rapidly changing educational landscape.

The conference will feature a series of panel discussions, workshops, and presentations, allowing scholars and educators to exchange ideas and best practices. Participants explore how Indian Knowledge Systems can be harnessed to enhance learning experiences and prepare students for future challenges.

This initiative marks a significant step towards bridging the gap between ancient knowledge and modern education, fostering a deeper understanding of India's educational heritage. The event was attended by Prof. Jagat Bhushan, Prof. B. Sudhakar Reddy, Sri. Laxman, Sri. Murali Manohar, Prof. Ghanta Ramesh, Prof. Ravindranath and Prof. Mrunalini.

Regards
O/o Chairman, TGCHE
